Light up your space.

At Sapphire Windows, we believe glass should do more than simply let light in - it should enhance the character, privacy and style of your home. That's why we partner with Pilkington, one of the UK's most respected glass manufacturers, to offer a wide range of beautifully crafted textured and decorative glass designs.

Combining timeless patterns with modern innovation, the Texture by Pilkington collection allows us to offer elegant glazing solutions that bring both light and privacy into your home, while maintaining the high standards of quality our customers expect

These glass designs can be used across all our products, including windows, doors, frames, and glazed panels. They are also ideal for fanlights above doors and side panels, creating a bright, welcoming entrance while maintaining privacy.

Working with trusted partners like Pilkington allows us to offer our customers a carefully selected range of beautiful, high-quality glass options designed to suit both traditional and contemporary homes.

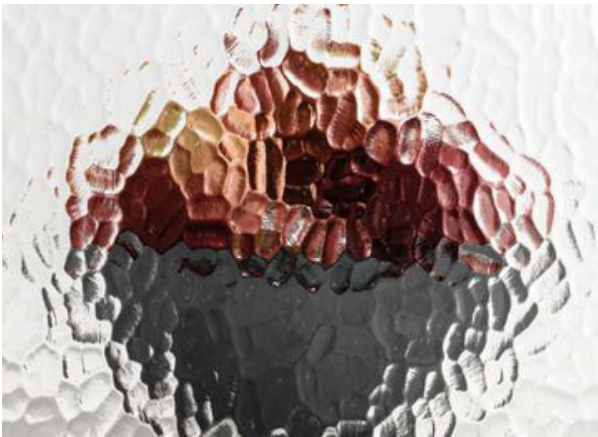

“There’s no better company to work with when it comes to glass. Pilkington bring decades of manufacturing expertise, technology and knowledge of what works. Combined with Sapphire Windows’ 36 years of installation experience, it’s a partnership our customers can truly trust.”

Shaun Matthews

Director, Sapphire Windows & Doors

Any Room

Our Any Room collection showcases a variety of contemporary designs that suit any space, adding a touch of texture to the way the sunlight shines through your home.

Arctic™ Privacy 5

A true, retro classic. First introduced in 1907, this glass mimics the soft shapes of a sheet of crystal ice, obscuring vision while casting beautiful glimmers around the room.

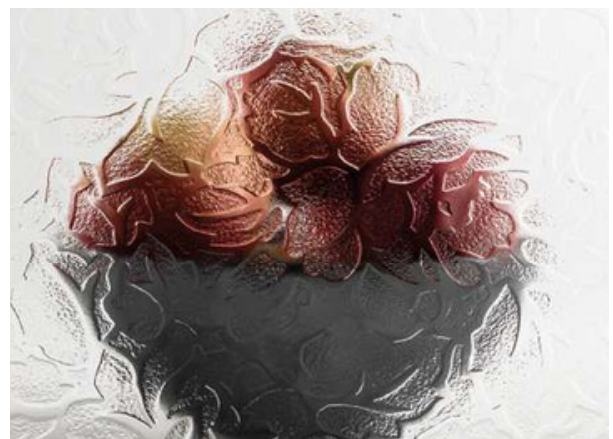

Cotswold™ Privacy 5

Designed by Brian Yale in 1964, this versatile design suits any interior décor style, inspired by natural wooden textures.

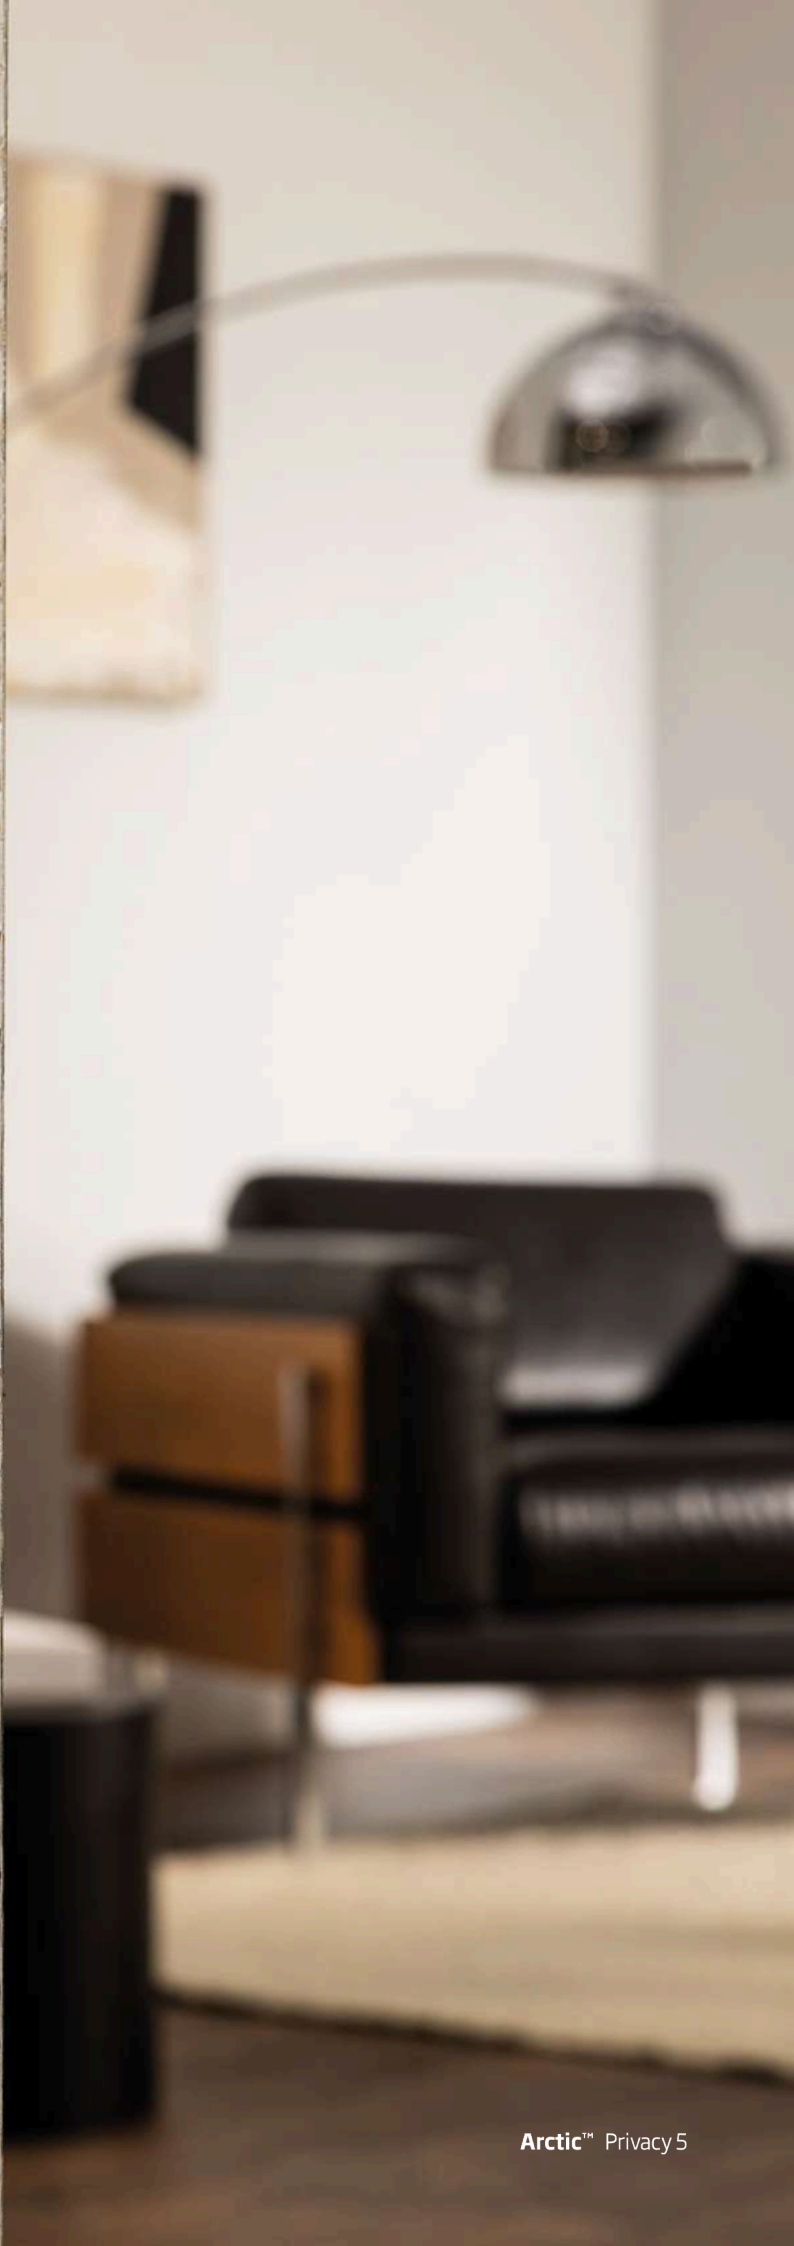

Flemish™ Privacy 1

One of our 'Cathedral' Glasses. **Flemish™** is a lightly hammered, dimpled design inspired by the vast tulip fields of the Netherlands. This beautiful glass adds a soft touch of storytelling to any space. One of our most popular styles since 1954.

Florielle™ Privacy 4

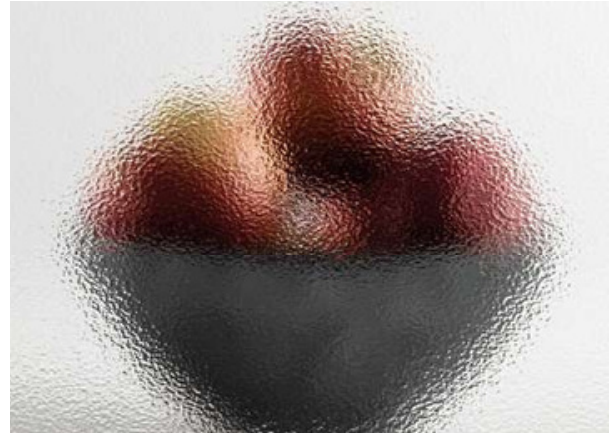

Originally described as 'lush with rose blooms and foliage', this pretty pattern compliments any space with soft, floral shaped glimmers.

Minster™ Privacy 2

One of our 'Cathedral' Glasses. Designed in 1991, this subtle pattern is inspired by cast glass, where the cooling glass would adopt the texture of the stone mould used to make it, giving a natural, dappled effect. A classic style.

Stippolyte™ Privacy 4

A classic, unfussy design that's achieved through small, closely set, stippled dots. Ultimate privacy, diffusing light to a soft glow around your space.

Sycamore™ Privacy 2

Bring the outside in with this delicate botanical pattern featuring hand etched sycamore leaves.

Taffeta™ Privacy 3

Inspired by the soft folds in taffeta silk, this swirling design adds movement to the way the light shines through your space.

Eternal

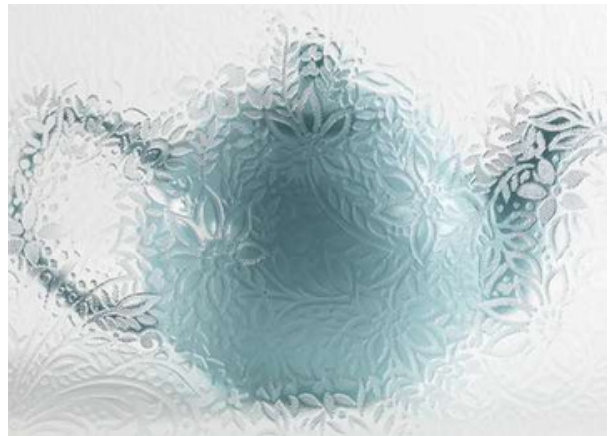

Our stunning Eternal collection has been specially curated to maintain the historic charm of heritage homes, period properties or interiors with a retro feel. Featuring a host of premium designs, crafted to compliment the fabrics, textures, and shapes that make this interior style unique.

Honour the past, embrace the future.

Autumn™ Privacy 3

A traditional foliage pattern of hand drawn leaves, created in the 1970s, giving any room a subtle touch of autumnal stillness.

Chantilly™ Privacy 2

A flowing floral pattern that would not be out of place in any Art Nouveau property. **Chantilly™** is based on highly detailed and delicate French lace.

Everglade™ Privacy 5

An iconic 70s swirling design that never goes out of style. Restore your space to a former glory with this nod to a staple style era.

Mayflower™ Privacy 4

A pretty, vintage pattern that puts a fresh and charming spin to any room. A kitsch choice for bohemian, cottage and vintage inspired spaces.

"I loved the amorphous undulating forms of the Black Oak leaves and created a gentle pattern with the samples that I collected from Kew Gardens."

Oliver Heath, Designer

Oak™ Privacy 2

A delicate design by Oliver Heath, inspired by oak leaves with a hand drawn feel.

Pelerine™ Privacy 4

An intricate ostrich feather pattern like 'a swirling cloak of privacy' with an intricate texture that gently diffuses the light.

Tribal™ Privacy 5

A striking, free hand-drawn aesthetic inspired by the vivid individuality of tribal patterns.

Warwick™ Privacy 1

A decorative glass designed to mimic the glass blowing process for an authentic feel.

Please note: Every piece of **Warwick™** is completely unique and due to this will never perfectly match a sample.

Icon

The Icon collection blends subtle, sophisticated elegance with intrigue and privacy, making a bold impact on your home aesthetic. Crafted with precision and attention to detail, each piece elevates your environment with unmatched style and quality. Our designs transform spaces into masterpieces, offering unique aesthetics that captivate your space and everyone in it.

Cassini™ Privacy 5

Inspired by Barcelona's mosaics, **Cassini™** uses an overlapping design to create a lenticular effect. Named after astronomer Giovanni Cassini, the evolving pattern creates a mask of anonymity.

Contora™ Privacy 4

This tight marbled pattern, designed by Oliver Heath, is influenced by the fractals in nature, such as raindrops on glass windows. The result? Beauty and privacy combined.

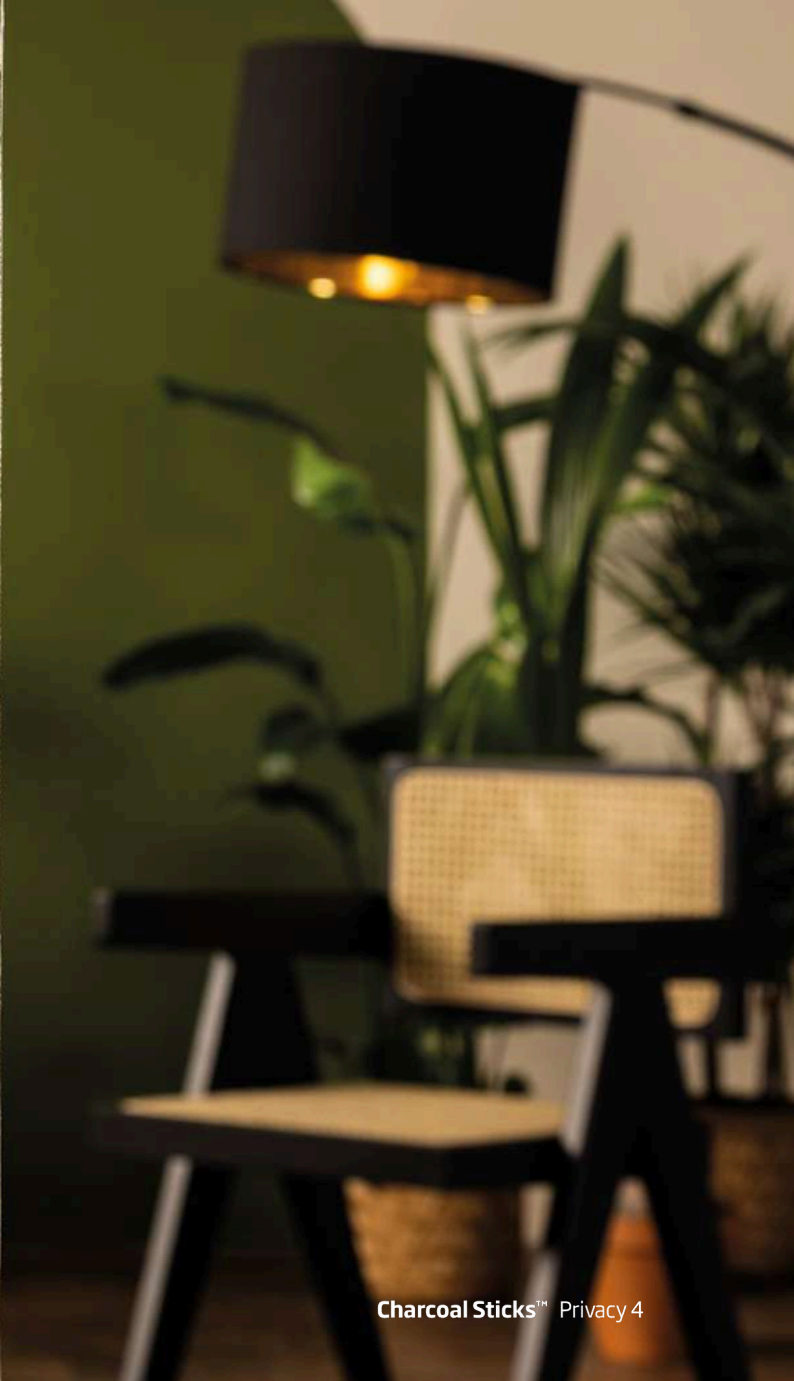

"At the time of designing this pattern we were holding regular life drawing classes at our studio, so this pattern was inspired by the soft angles & gentle curves of the charcoal sticks that we drew with."

Oliver Heath, Designer

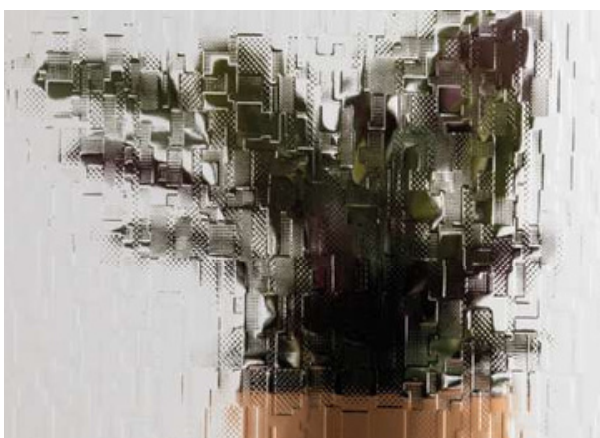

Charcoal Sticks™ Privacy 4

Designed by Oliver Heath in 1999, this pattern reflects the charcoal sticks used in life drawing classes, creating a simple yet delicate geometric texture.

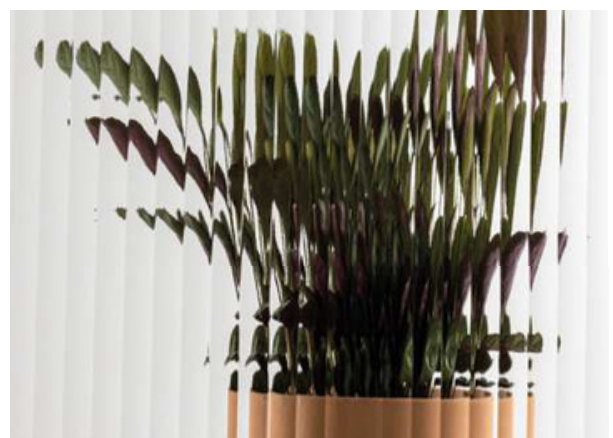

Charcoal Sticks™ Privacy 4

Digital™ Privacy 3

Inspired by early digital interfaces, Oliver Heath's design evokes the iconic geometric pattern of early computer technology, forming a complex, obscuring design with pixelated details.

Reeded™ Privacy 2

Originally designed by M.L. Anderson in 1933, this timeless classic is experiencing a modern resurgence. Its clean lines perfectly compliment soft furnishings, patterned lighting, vases, and glasses.

Privacy.

Beautiful glass designs that balance natural light with the level of privacy your home needs.

At Sapphire Windows, we understand that privacy is just as important as natural light when choosing glass for your home. That's why we work with trusted manufacturer Pilkington to offer a range of textured glass designs that combine style with practical performance.

All textured glass patterns are available in toughened and laminated options, helping to enhance safety and security while remaining suitable for double and triple glazing across our window and door systems.

To make choosing easier, the collection is organised into five privacy levels, ranging from Level 1 (least obscuration) to Level 5 (greatest obscuration), allowing you to select the right balance of light and privacy for each space in your home.

Privacy Level 1 - **Flemish™**

Privacy Level 2 - **Minster™**

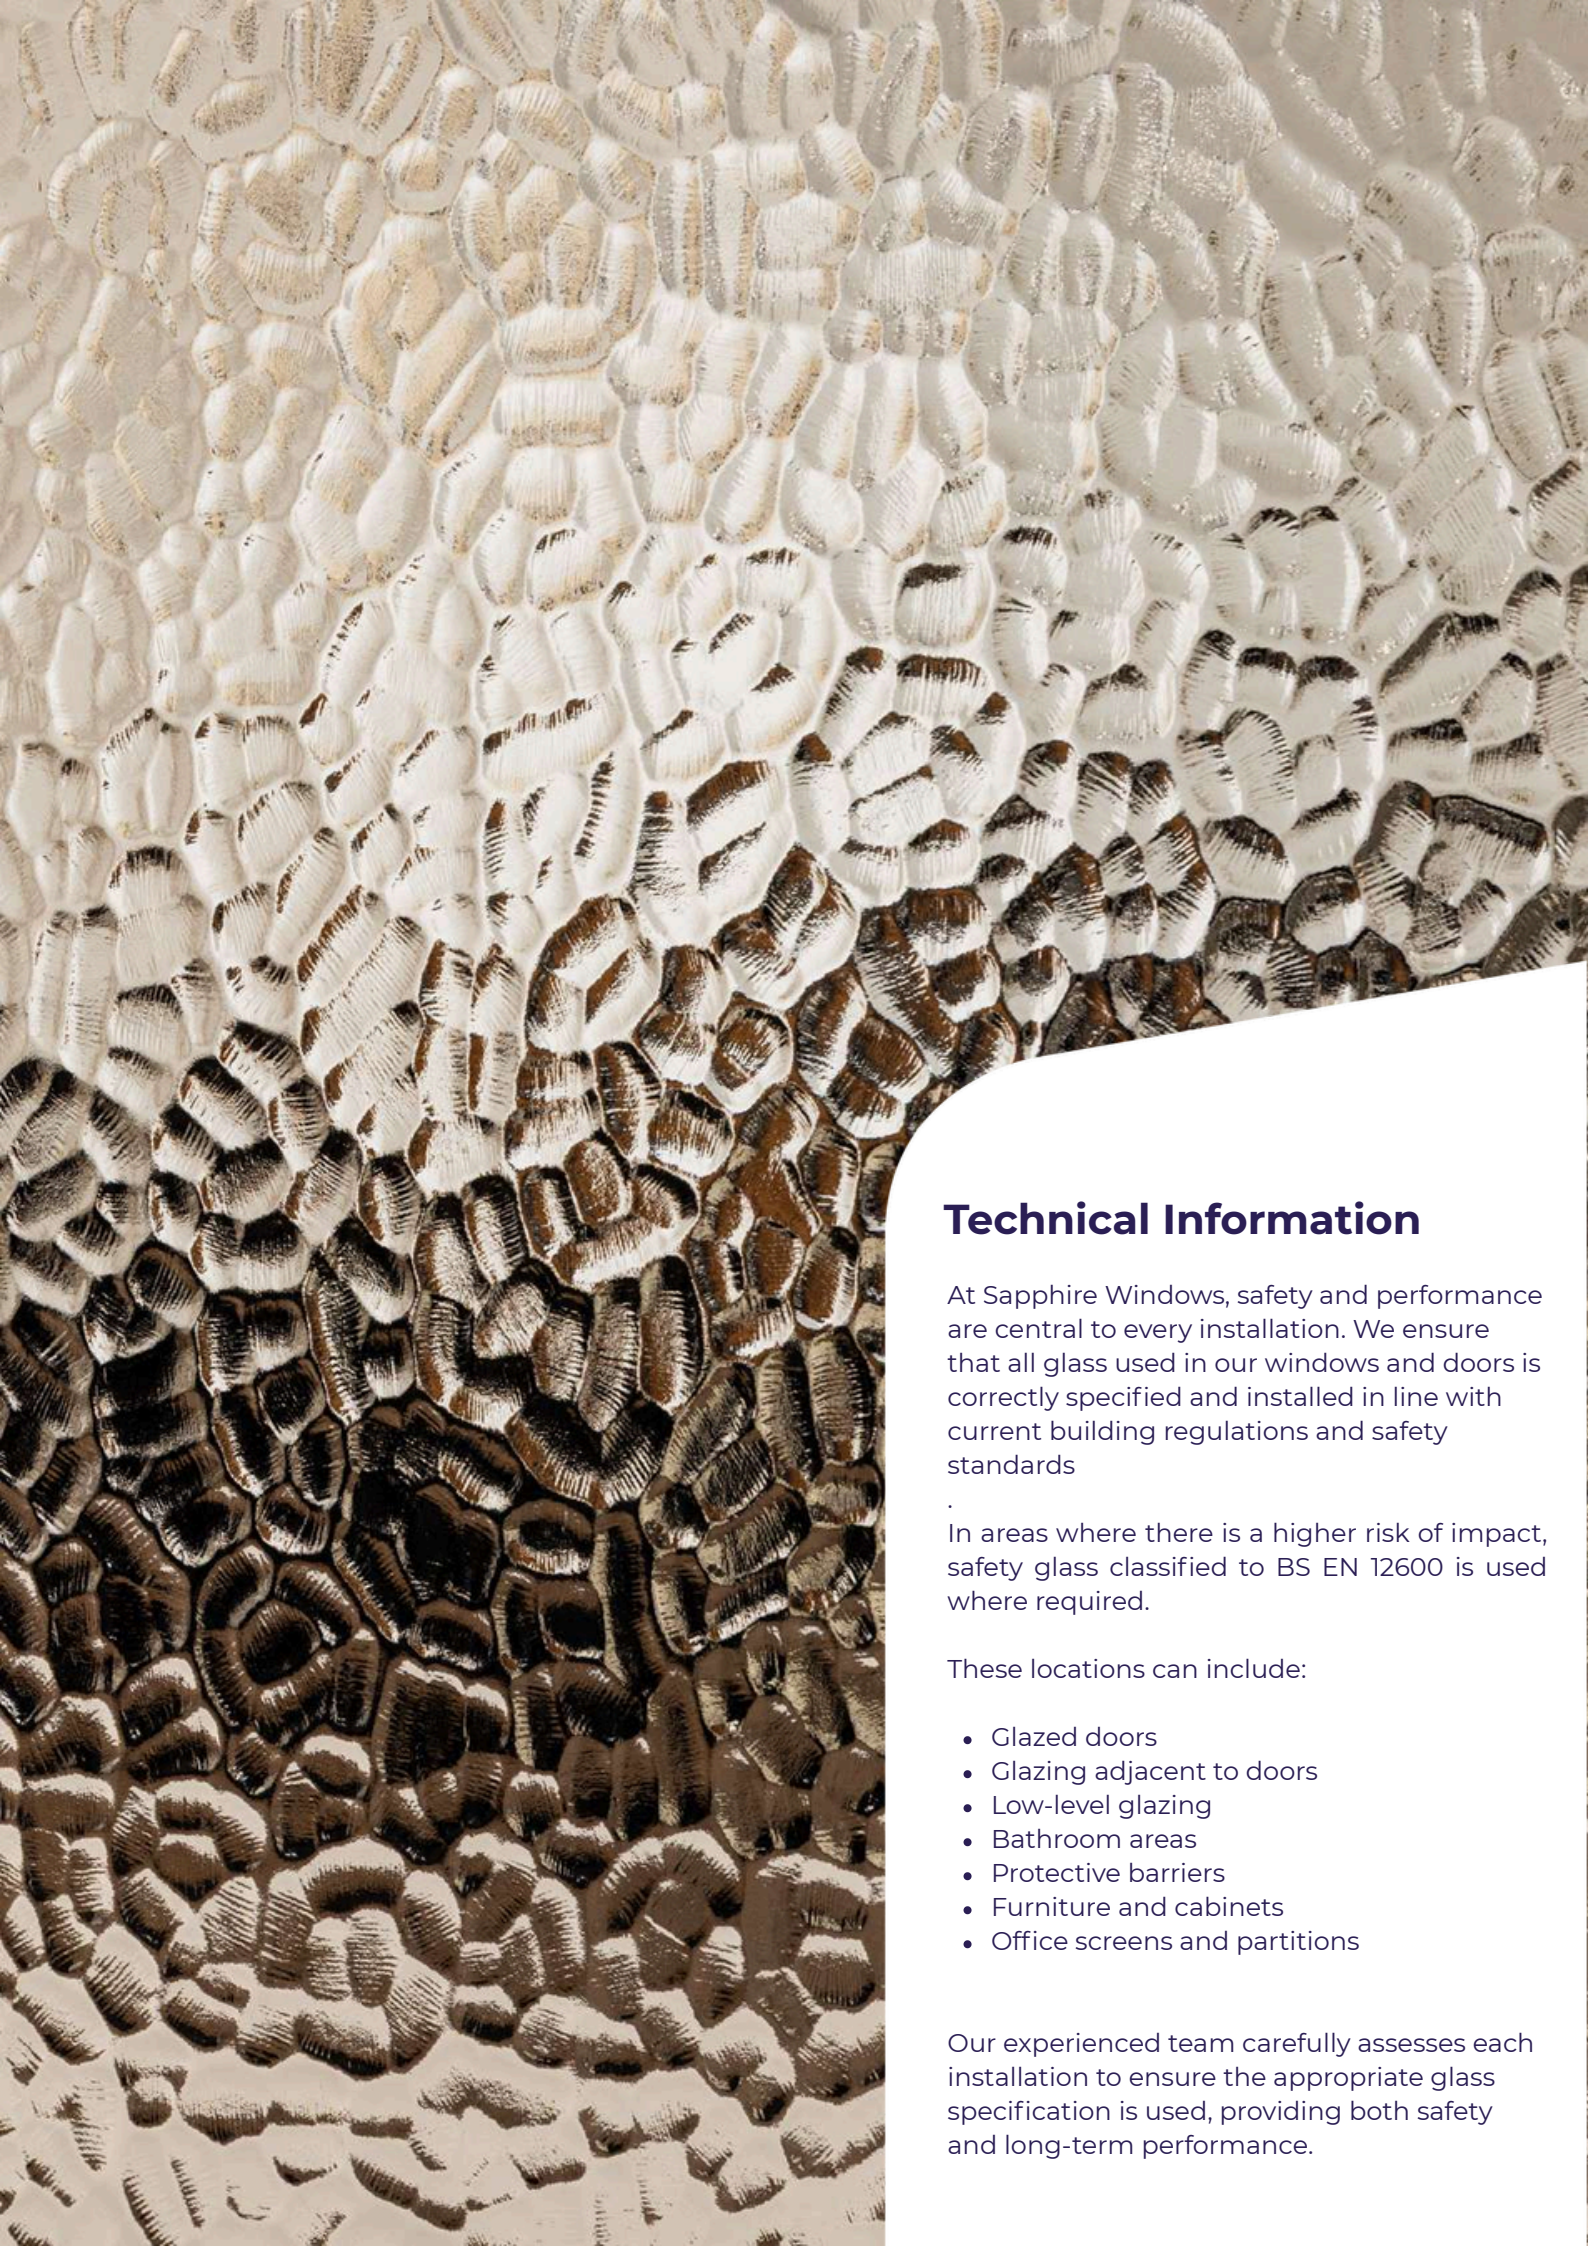

Privacy Level 3 - **Taffeta™**

Privacy Level 4 - **Florielle™**

Privacy Level 5 - **Arctic™**

Technical Information

At Sapphire Windows, safety and performance are central to every installation. We ensure that all glass used in our windows and doors is correctly specified and installed in line with current building regulations and safety standards

In areas where there is a higher risk of impact, safety glass classified to BS EN 12600 is used where required.

These locations can include:

- Glazed doors
- Glazing adjacent to doors
- Low-level glazing
- Bathroom areas
- Protective barriers
- Furniture and cabinets
- Office screens and partitions

Our experienced team carefully assesses each installation to ensure the appropriate glass specification is used, providing both safety and long-term performance.

Designed for Your Home. Installed with Care.

At Sapphire Windows & Doors, we are proud to supply and install high-quality windows and doors that combine craftsmanship, performance and style. Our glass collection features beautifully designed, textured and decorative glass supplied by Pilkington Glass, one of the UK's most trusted glass manufacturers.

By working with respected suppliers like Pilkington, we are able to offer our customers a wide choice of glass designs that balance natural light, privacy and security, while maintaining the quality and standards our installations are known for.
